

## Washington State Legislature

March 7, 2014

"Two important legislative issues remain priorities for both the House and Senate: veterans' in-state tuition and the document recording fee to support programs that help homeless people in our state.

"The veterans' tuition bill is designed to provide education opportunities for our veterans. The document recording fee provides targeted funding for vulnerable citizens who are struggling with homelessness.

"House and Senate leadership is in agreement that these issues are not subject to today's cut-off, and we look forward to delivering this important legislation to the governor before Sine Die."

Sincerely,
