1	When is this going to stop! Where it is not your money, you don't even have a guilty mind when you want us to help pay for all these programs. As taxpayers, we have had to "tighten our belts", trying to stretch the dollar. It is about time, like it used to be, that in the 60's and 70's, we had to live within our means. I bet you haven't had to tighten you belt, you get paid by the government no matter what. I do feel sorry for the Restaurants, so why don't you have "only" he restaurants in this bill. But instead, like everything else, when you propose a bill, you stack it with everything.	3/2/2022 4:51 PM

1	I am against. When I went to College, my Friends, my own children, we did not have anybody helping us. My friends and myself, are just average people. We had to work a little harder. No government, gave us free money. Now there is no incentive to be creative, thinking how am I going to pay for a better education. Giving out all this free money, takes away the drive, I can make it on my onw. Plus is it fair to all the young people that have had to pay for a college education without any help. Just in my own family, they have resentment, saying we had to work, we did not have the government bail us out. We have too many "free" programs today, that is making us lazy. I have heard too many people say, why do I want to work, when the government can support me. I get Section 8, Food Stamps, Health Care and etc. What more do I want or need.	3/2/2022 4:51 PM
2	How about loaning money 1% over prime otherwise just too much money	2/24/2022 10:08 PM
3	Any and All "Loans" must be paid by the student or there will be consequences. No More Forgiveness of these Loans.	2/24/2022 1:58 PM
