31	The government as a whole needs to be returned to the people. The federal government is seriously broken and corrupt. The FBI needs to be completely overhauled and a serious house cleaning to make it an honest forth right crime fighting organization. It is time to end lobbyist period and payoff's to those greedy enough to accept them. Let's make our government a true example of honesty and integrity for the all the world to watch. Not this three ring circus I see today. As a combat veteran and caring citizen of our beloved country I am sick to death of the way our government has conducted itself.	1/13/2021 6:25 AM

59	My next door neighbor is a foreign born U.W graduate in Computer Science who purchased a 60 year old family residence and turned it into a Rental Rooming House for foreign born adults with 4 bedrooms and two bathrooms with onsite parking for only two vehicles therefore vehicles at this residence amount for 8 or more vehicles flooding the residential street and limit visibility for other residents who use the street. On four occasions the Fire Department was called due to large fires of vegetation, card board, toxic material giving off dense smoke with ash floating to neighboring property and motor bikes are stored in the basement where a Gas Furnace provides heat for the above bedrooms and living area, A propane bar-b-que is located in near basement entry where motor bikes are stored. It has been brought to the attention of owner a 60 foot by 5 feet tall pile of dry branch material has collected beneath two fir trees over 100 ft. tall. Owner and Renter allow apples to rot on the ground attracting insects and wild pests. Three senior citizens own adjoining property to this nuisance property, Provide a phone line for seniors to call, report, and get resolution from government authority to clean up this property in 30 days or receive criminal action with posting of a BOND for government to hire workers to clean up property within 30 days. The height of the fir trees is a hazard in this residential neighborhood where children and seniors reside. for 2 vehicles resulting in numerous vehicles parking on the residential street	1/12/2021 6:27 PM

70	a strong economy	1/12/2021 5:47 PM
71	Having a social services emergency system rather than only a police emergency system would be the best thing I can think of. We should not be calling 911, police dispatch, on things that are not police related. Send hammers to a glass factory, you get a lot of broken glass. Figure out what the goals of our police force are and then set up the union contract and the training to achieve that goal. Don't assume "protect and serve" means the same thing to everyone. We need a group that can response to a mental health emergency, family dynamic emergency, wellness check, etc. Not always the police. That can cause more problems. Thank you	1/12/2021 5:28 PM

Two million people around the world have died and 400,000 in US. Why would any other topic be more important, not to mention that beating the virus will address income and employment deficiencies. There are 88,000 pharmacies in the US if each did 1 shot/6 minutes we would have given 200 million shots not the puny 7 million so far. 107	NOT INCREASING TAXES! BTW, restricting voters constitutional rights (1st and 2nd amendments in particular) and taking away their freedom to make their own decisions regarding the safety and well being of their family has ZERO effect on improving the states economy and helping those who have suffered under the baseless restrictions our Low Intelligence Governor has put in place. There is ZERO science behind his decisions. It's nothing but pure politics. Destroy businesses and jobs which in turn reduces state tax income leaving the only option democrats believe in which is to raise taxes. He's so predictable I should be placing bets on his future actions. How about we cut his salary? Trump, his favorite man to hate, donated his presidential salary to charity. 146	You can not do anything until the covid pandemic is under control. There has been no national directive from day 1. The state legislature needs to work with the new administration to come up with innovative ideas to accomplish this. Since nothing was being done at the national level, thank goodness our state and local governments actually tried to do things at the local level which made our state one of the lowest in case counts and deaths per capita.	1/12/2021 1:53 PM

157	Honest transparency. We are very disgusted re the presidential election fraud. Also the double standards: one is peaceful protest Or "summer of love" and the next is called a "riot". We are intelligent people!!! Also, Seattle has been utterly destroyed with shuttered buildings, unsafe streets, homeless/drug addicted persons roaming the streets, defecating where they choose and NO respect for police. We do NOT agree with "defunding police" movement. Only ones that do believe in this are the ones WITH private security or police detail assigned to them.	1/12/2021 1:41 PM

2	I live in Nevada not sure why I received this survey but will gladly respond to it. I once called Renton my home town when I worked in the Seattle area. I LOVED the area and the very kind and generous people I had the pleasure to meet and work with. It saddens me to see what has happened in Seattle. It is almost like a bad dream.	1/13/2021 6:25 AM
